

# How to Embed youtube video in the html webpage

HOME INDEX - 1 INDEX - 2 INDEX - 3

The youtube link of the video to be embedded in the webpage is as follows

<https://www.youtube.com/watch?v=Ejl1085cp7A>

Now the below code to be pasted in the body tag of the html webpage

```
<embed style="width:720px; height:450px"
src="https://www.youtube.com/embed/Ejl1085cp7A"></embed>
```

The portion highlighted with yellow ie `watch?v=` shall be replaced by `embed`. Like

```
<embed style="width:720px; height:450px" src="https://www.youtube.com/embed/....."> </e
```

Height and width can be adjusted as per your requirement.
